CHARACTERS
SPEECHCricket:

CHARACTERS:

In Dickens all characters are active - they are creative spirits. Even the dark side, the other side, the devilish side is strongly active; and, of course, the positive side is even more active. This will kill the sentimental interpretation if it is understood that there are no weak characters, no negative characters - all are strongly active.

SPEECH:

Speech style for Cricket: The style for the speech is balled - completely free - simplicity of feelings. One hates or one loves fully. Every quality is done completely. The speech is very free. The characters live fully in everything they come in contact with.
