Some-where - in Germany

Dear Aunt, and members of the Mothers Club.

A few days ago I received your highly appreciated Xmas box. The reason I received the box late, was because the box had chased me from Belgium to England from England to Germany.

Finally after being in one spot for more than a couple of days, your package caught up with me.

It was very thoughtful of you mothers to send me this package, which I also shared among my comrades. (I hope you didn't mind)

I know the other boys in service enjoyed their packages as much as I did.

It makes me very happy to know that other people besides just my family are concerned about my being made happy by sending me such gifts.

(2)
Again I thank you for my-
self and the boys and hope & pray
you will not have to send
me another package, because
by next Christmas we all expect
to be home and home for good.

yours Truly
Emerson
