Somewhere in Holland.

Dear Friends:

I received your welcome
Easter card a few day ago,
and I hope each and
everyone one of you, back
there in Windsor, enjoyed
it to the fullest.

It not every day, a
soldier in the front lines,
get a chance to write a
letter, or know what day,
it is, except X-mas or New
years, because all the
days seem the same,
and seasons' cards of
various days, brings back

(2)

memories of our younger days, which sort of take our minds off the war, for a second or so.

So you see its the little things that count as well as the extraordinary big things, they all have there place in order to make the wheel go round.

So closing I want to thank you and the little committee for the goodness, they are doing, its certainly a splendid idea, making us laddie feel, that we aren't forgot about, at home, so just keep us the good work, and

(3)

I am sure, it will not be long, until this crisis collapses. The end is in sight and the weeks numbered, so we can uncrossed our fingers now, and look forward to a glorious victory.

And to those of us, who have experinece bitter fighting and hardships over, can return home, and look back on this a a bad dream.

So thanks once again for your Easter card also the previous parcel, and you don't know how grateful I am. E. Richards.
