

W. Chekhov

November 2, 1936

ALL QUALITIES COME TOGETHER IN THE ACTOR:

Only in the center is he an actor

In the diagram nothing is first, and nothing is last. Everything is together. It is a very simple thing but absolutely important for the actor.

The actor is the person who fills the center of the diagram. For him nothing is first and nothing last. All the qualities come together in him. He knows that all things are one thing for him.
